Error Log Entry

What error message did you encounter (if any)?

Mr Abdallah told me that my code was not imported properly as the textbook because I used Ai in a incorrect manor, I uploaded the image icon wrong which I had to change

What unexpected behavior did your program exhibit?

It worked but it wasn't the right way.

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)

ai I used it wrong but i got help from mr abdallah

Include a screenshot of specific lines of code.

I deleted all the old code unfortunately

How did you fix the issue?

I rewrote all the code

Provide the corrected code or solution using a screenshot.

```

1 package Mastery;
2 import javax.swing.*;
3 import java.awt.*;
4 import java.awt.event.*;
5 import java.util.ArrayList;
6
7 public class LocalBankGUI implements ActionListener {
8
9     JFrame frame;
10    JPanel panel;
11
