

Credit Name: Zubair Bechir									
Assignment Name: Chapter 11 file structure and exception handling									
Error Log Entry									
What error message did you encounter (if any)?		I got a little confused on how to create the file for 2 of the masterys because I was doing vowels and word guess, so I had to make sure I wrote the correc think in the file							
What unexpected behavior did your program exhibit?		Nothing everything was good							
What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)		creating the file							
Include a screenshot of specific lines of code.									
How did you fix the issue?		I made sure to write the correct things in the file.							
Provide the corrected code or solution using a screenshot.
